## Unique battery-powered, rechargeable GPS trackers for accurate fast-tracking of all valuables

Lommy Rapid is a series of small battery-powered GPS trackers for accurate positioning, even when high speed positioning is required.

A battery-powered device, that is capable of high-speed positioning gives you a unique solution.

Battery recharging ensures you profitability and functionalities for years to come.

Lommy Rapid monitors the exact location of your valuables and provides reports in a time interval of your choice.

Activate the motion sensor and you will get a notification, when movements occur. Motion report interval can be set down to every 30 seconds.

Choosing the option for Real-Time mode, enables you to receive ultra-high-speed positions in an interval down to a few seconds. Real-Time mode is supplied as a special add-on option.

Lommy Rapid S

Lommy Rapid L

### Keep track

Accurate GPS tracker for reliable tracking of all your belongings. Easy monitoring on web, smart- phone or tablet. Set up email alerts to receive warnings if unwanted incidents occur.

### Accurate positioning

Reliable and accurate positioning based on advanced GSM triangulation combined with accurate GPS positions.

### On the move

Activate the built-in motion sensor and Lommy Rapid will send positions, if your valuables are moving. Activate the notifications to get alerts.

### Battery powered

Efficient power management, recharge- able battery and secure technology ensures optimal utilization and makes Lommy Rapid a great investment.

### Easy to mount, easy to use

Lommy Rapid is battery-powered and easy to install. No assembly or wiring is required. Simply hide the small GPS tracker on your belongings and it is ready.

### Track down, if lost

Track the position of your lost or stolen asset in a secure way by using a combination of GSM and GPS. As the device is small, easy to hide and difficult to trace, the recovery rate is extremely high.
